# Case Interview Secrets Victor Cheng Pdf 17

Several years earlier, Romanian President Klaus Iohannis victory in 2009 over social democrat Craciun Mihallesc, as well as several corruption cases relating to it, allowed Orbn to carve out a post-communist identity for himself as a true democrat who does not tolerate corruption. Orbn has also shown a willingness to stand up to the EU on issues related to foreign investment. In July 2018, Orbn vetoed a Chinese offer to sign a proposed free trade agreement with the bloc, and in February 2020, his government refused to allow the sale of a Romanian state-owned dairy cooperative to Chinese-owned Coffee Lake Dairy. Chinese investments have remained controversial in Romania, but Orbn's negative feelings toward Brussels have prevented him from doing anything to stop them. Besides China, Orbn's most obvious point of pride is his success in restoring economic growth after the 2008 economic crisis. His policies, which brought high levels of privatization, have lifted the living standards of the Romanian public, but they have also hurt the labor market. In 2020, Rom's gross domestic product growth is expected to hover around the 1% level. By this measure, Orbn has performed far better than his predecessor Traian Basescu, but he has done little to alleviate critical problems such as unemployment, high youth unemployment, and declining social mobility. Over the last several years, China's infrastructure investments have extended into Southeastern Europe, and they are likely to continue. To Beijing, this region is strategically located at the intersection of European and Asian interests. In addition to natural gas infrastructure and trade agreements with Europe, China's other focus is on the military modernization of the region. These investments form part of China's long-term plan for Eurasian integration, in which it seeks to become a global superpower at the center of the Eurasian continent. Moreover, in the case of Romania, China's ventures are far larger than Orbn's initial attempts at regime change.
